

SUMMARY

Detail-oriented Full-Stack Developer skilled in designing, developing, and maintaining web applications. Proficient in both front-end technologies, including HTML, CSS, Tailwind CSS, Material UI, JavaScript, React, version control tools (Git and GitHub), and Firebase. Experienced with backend technologies such as Node.js, Express.js, and working with databases like MongoDB. Strong problem-solving skills and a collaborative mindset, with a proven ability to work effectively in agile environments. Committed to writing clean, maintainable code and delivering user-friendly solutions. Eager to continue learning and growing in the tech field.

EDUCATION

Success Land Academy

Senior Secondary Certificate Examination
2015 – 2021

Babtech Computer

Babtech computer cert.. and
Skill development council canada cert
2024..

SKILLS

- **Teamwork:** Collaborating effectively with colleagues, designers, and stakeholders to achieve common goals.
- **Communication:** Clearly articulating ideas and technical concepts to both technical and non-technical audiences
- **Responsibility:** Taking ownership of my work and impact on the team and the project.
- **Continuous Learning:** Demonstrating a commitment to personal and professional growth by staying updated on industry trends and technologies handling financial documents

PROFESSIONAL EXPERIENCE

User Interface (UI) Design

- Collaborated with designers to create intuitive and visually appealing user interfaces, enhancing user experience and accessibility
- Conducted user research and usability testing to gather insights, identify pain points, and iterate on designs for improved user satisfaction.
- Developed mobile-first and responsive designs that adapt seamlessly across various devices and screen sizes, enhancing user accessibility.

Developed and Maintained Web Applications

- Using modern frameworks such as **React** ensuring optimal user experience across devices.
- Maintain high code quality, resulting in reduced bugs and increased maintainability.
- Identify and resolve issues, ensuring applications are robust and performant.
- Efficient project management and collaboration within cross-functional teams.
